

Aztec Baseball League

P.O. Box 867
Chino, Ca 91708

The Aztec Baseball League requires teams to provide a team line up prior to the start of each game. The purpose is to provide the other team an opportunity to verify the players on your team. This rule is not an option. Teams that failed to provide a lineup sheet to both the opposing managers and home plate umpire are subject to fines and including forfeiting the game. The lineup requirements are listed below.

1. Lineup sheets do not have to be ABL provided. Any sheet listing eligible players is acceptable.
2. Players listed must include a last name, at least a first initial, and a uniform number.
3. Players not listed on the lineup are not eligible to play in that game.
4. No changes can be made to the lineup sheet once it has been turned in.
5. No two players may use the same number. Players with the same number are subject to be called out for not having a complete uniform.
6. No two players may share a uniform.

Good luck ☺
